

SHOT-IN DARK AFTER CHALLENGE OF 'WHO'S THERE?'

Victim of Bullet Partially Identified
Man by Sound of His
Voice in Test.

Martha Casey, employed in the gas manufacturing plant of the Kings County Lighting Company at the foot of Fifty-fifth street, Bay Ridge, was probably fatally wounded by a pistol shot shortly after midnight to-day. Patrick McCarthy, a watchman at the Morris Dry Dock, a block away from the gas plant, was held as the man who fired the shot after Casey had partially identified him by the sound of his voice as the one who shot him.

Casey, whose home is at No. 67 Sixty-third street, in the Bay Ridge section of Brooklyn, told the police during the hour's rest after midnight he had left the gas works and wandered down to the beach in search of driftwood, which he believed would be cast up by the high tide. He heard a man shout, "Who's there?" and before he could answer came the sound of a shot and he felt the sting of a bullet in his side. He dropped to the beach and some one came to give him aid until some of the other employees in the gas works, hearing the shot, began to search the beach and discovered him.

After Casey had been removed to the Horwag Hospital by Dr. Douglas de la Motte of the Fourth Avenue station, three men, including McCarthy, whom they found in the vicinity of the shooting and took them to the hospital. The seriously wounded man could not identify any of them as having been his assailant because he had been so close in the darkness, but upon his examination the three men at his cot's side were made to repeat, "Who's there?"

As soon as McCarthy said the two words Casey pointed to him and said: "That must be the man. It is the same man."

McCarthy denied vigorously that he had done the shooting and denied also that he was night watchman at the Morris Dry Dock. The latter fact, however, was vouched for by other employees at the docks and McCarthy was held under a charge of attempted manslaughter for arraignment in the Fifth Avenue Court.

DOCTORS GAVE HER UP

Mrs. Stuart Finally Saved
by Lydia E. Pinkham's
Vegetable Compound
—Her Story Interesting.

Elmo, Mo.—"I think your Vegetable Compound is wonderful for it has helped me. I had four doctors and they said I had female troubles and a tumor and nothing but an operation would help me. I could not sit still long enough to eat, and could sleep hardly any I was in so much misery with pains in my side and back."

"A year ago last spring my doctor gave me up, and he was surprised to see me this spring and to see my condition. I give Lydia E. Pinkham's Vegetable Compound the praise wherever I go, for I know I would not be here today or have our fine baby boy if I had not taken it."

Mrs. SARAH T. STUART, R. F. D. No. 8, Box 16, Elmo, Mo.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, indigestion, dizziness, nervous prostration, Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

TRANSFERS

It has become apparent that the existing transfer methods require change in the interest of the convenience of the public as well as for the protection of the revenues of the Company. Commencing therefore on June 1, 1912, a new form of transfer ticket will be issued to passengers.

The advantages of the new transfer are as follows:

1. It is convenient for the passenger because it indicates all the possible ways of travelling between two points for a single fare.
2. It relieves the passenger of the necessity of obtaining one transfer after another, as the single transfer with coupons, obtained upon the payment of a cash fare, is all that is necessary to make the desired journey.
3. It relieves the conductor of the necessity of issuing re-transfers. He will have more time to devote to the safety and convenience of passengers and to the proper operation of the car.
4. This system will afford to the passengers all transfer privileges to which they are entitled, and should reduce transfer abuses.

The extensive use of transfers and their great abuse have reduced the average fare per passenger to 3.41c. for the first four months since January 1, 1912, when the New York Railways Company commenced operation. This does not leave sufficient margin to enable the Company to develop its property as it would desire to do if it were permitted to enjoy greater prosperity.

Notices explaining the new transfer ticket will be found in all of the cars and instructions for its use are printed upon the back of the ticket. The co-operation of the public is respectfully requested.
